February 13, 2015

To Whom It May Concern:

I would like to address this Body concerning the Proposed Bill #5886 that a few of you are determine to pass.

My name is Larry D. Robinson and I have lived in Bridgeport, ct. for over Thirty years' am a United States Army Vietnam Era Veteran that serve this great country I so love in the early Seventies. I am currently disabled. I am the Chairman Commissioner for Persons with Disabilities. I am Chairman for Region One Emergency Support Function Nineteen (19) Special Needs City of Bridgeport Emergency Management. I'm the Chairman for Emotional and Spiritual, Long Term Mitigations, Bridgeport Office of Emergency Management.

My concerns is the House Bill #5886 that feel is unfair and one that a very small number Politician's want to pass, I have had the distinct Pleasure of living in Bridgeport for over 30 years. It has been a pleasure working with one of our great Councilwoman that works in Bridgeport's Veterans Affairs Office and is the Director. This Councilwomen has dedicated her life to helping my fellow Disabled Veterans Navigate this topography Call life and the many complications it brings. Her resolve to the care and welfare of my fellow Veterans shows a person who is genuinely concern about not only the Vet. But their many families as well. To question this Councilwoman's integrity is an insult. This Councilwoman works for the City of Bridgeport she is and outstanding Leader with Character, Integrity and Loyalty working for all Bridgeport citizens.

We the disability community would highly recommend that a Grandfather Clause be included in this Bill, to keep these Council people affected by this Bill, employed by the City in order for them to support their respected families, since they were already elected by the people of Bridgeport!

Sincerely,

Larry D. Robinson
